

# Axon Body 3

## SEE THE SUPPLY CHAIN IN THE MOMENT

### **INTRODUCING THE NEXT GENERATION CAMERA, WITH REAL-TIME TECHNOLOGY**

**HIGH QUALITY VIDEO | REAL-TIME AWARENESS | UNMATCHED DESIGN AND SECURITY**

With Axon Body 3, the supply chain is crystal clear because of incredible low-light performance and reduced motion blur. Trust your camera with complete on-device encryption and Axon Body 3's sleek but super strong design, built to survive even the harshest conditions. And now, with built-in wireless connectivity through Axon Aware, receive video streams in real time, without ever needing to dock the device. It's the first body camera built with both brains and brawn so you can protect your drivers and your cargo.

## FEATURES AND BENEFITS

**LIVE STREAMING:** Axon Body 3 can stream audio and video so you can react in real time from anywhere.

**REAL-TIME COMMUNICATION:** Consolidate your necessary technology with two-way communication.

**EXCEPTIONAL VIDEO QUALITY:** With video footage, image quality is everything. Axon Body 3 lets you see high-resolution video still-frames during playback, and captures the details even in low light conditions.

**MULTI-MIC AUDIO:** Featuring multiple microphones, wind noise reduction and other advancements, Axon Body 3 lets you play back crystal-clear audio for a better sense of what happened.

**ON-DEVICE ENCRYPTION:** The security of your device is top of mind. That's why Axon Body 3 features disk encryption.

**LONG-LASTING BATTERY:** Axon Body 3 will last for 12 hours, so you can depend on it for your entire work day. You can even recharge it while the camera is on.

**SLEEK & RUGGED DESIGN:** The camera hardware strikes the perfect balance between a clean and super-strong design that can survive even the harshest conditions.

**PRE-EVENT BUFFER:** To help ensure key moments don't go missed, Axon Body 3 supports up to a 2-minute pre-event buffer with configurable audio.

**EXPANDING CAPABILITIES:** In the future, take advantage of new features like the ability to preview video over LTE, "Find My Camera," seamless post-event transcription & reporting, priority offload, and more.
