MOUNT ORDER INFORMATION

# AXON SIGNAL SIDEARM

---

In critical situations, activating your Axon Body camera may not be at the forefront of your decision making. Axon Signal Sidearm is a smart sensor that attaches to your holster. It alerts Axon Body cameras within 30 feet to begin recording the moment your firearm is removed from its holster.

# HOLSTER IDENTIFICATION

SAFARILAND & BLACKHAWK

\*AXON SIGNAL SIDEARM IS NOT A UNIVERSAL PRODUCT. IF YOU ARE RECEIVING AXON SIGNAL SIDEARM AS PART OF A BUNDLE BENEFIT, IT CAN ONLY BE USED IF AN AGENCY ALREADY HAS A COMPATIBLE FIREARM/HOLSTER.

# SAFARILAND 6 SERIES

---

Safariland 6 series holsters display their model numbers on the backside of the holster where the rail / trigger guard of the firearm is located.

# SAFARILAND 7 SERIES

---

Safariland 7 series holsters display their model numbers on the backside of the holster where the rail / trigger guard of the firearm is located.

7 series red dot compatible holsters will have the RDS code appended to the first 4 digits (ex: 7360rds). Any 7 series model we support will also support the RDS version.

# BLACKHAWK L3D & L2D

---

Blackhawk L3D & L2D series holsters display their model numbers on the backside of the holster where the rail / trigger guard of the firearm is located.

## MOUNT ORDER INFORMATION

### AXON SIGNAL SIDEARM IS NOT A UNIVERSAL PRODUCT

- To place an order, please contact your Axon sales representative and provide them with your firearm model, holster information, and light model.
- If you are receiving Axon Signal Sidearm as part of a bundle benefit, it can only be used if you already have a compatible firearm/holster/light model combination.
- If your firearm/holster/light model combination is not found in the preceding charts, that means it is not currently supported. Please contact your Axon sales representative so we can work towards developing Axon Signal Sidearm compatibility in the future.
